1.3 Project / Clip List / ChatRGV

ChatRGV

Ask questions to gather information using generative AI.

Chat : Ask questions in a dialogue format using the chatbot function.

Search : Search for data* accumulated in SpectA.

Clip List

The screenshot shows the SpectA interface with the 'Clip List' view. A 'ChatRGV' modal is open, allowing users to interact with the chatbot. The modal has a 'Chat' tab and a 'Search' tab. The 'Chat' tab is active, showing a conversation history and a text input field. Numbered callouts (1-8) highlight key features: 1. ChatRGV button in the sidebar; 2. Chat tab; 2'. Input field; 3. Send button; 4. Copy icon; 5. Delete history icon; 6. Settings icon; 7. Copy icon; 8. Close button.

Features & Step-by-Step Guide

① Click “ChatRGV”

② Select “Chat” or “Search”

Switch between them by clicking the tabs.

③ Input the question

Input the question you want to ask ChatRGV.

④ Click “

⑤ Delete conversation history 

Click the icon to delete the conversation history.

⑥ Settings 

GPT model, prompt, temperature, and search range can be changed.

⑦ Copy of the response

Place the cursor over the response to copy, and click the icon to copy it in markdown format.

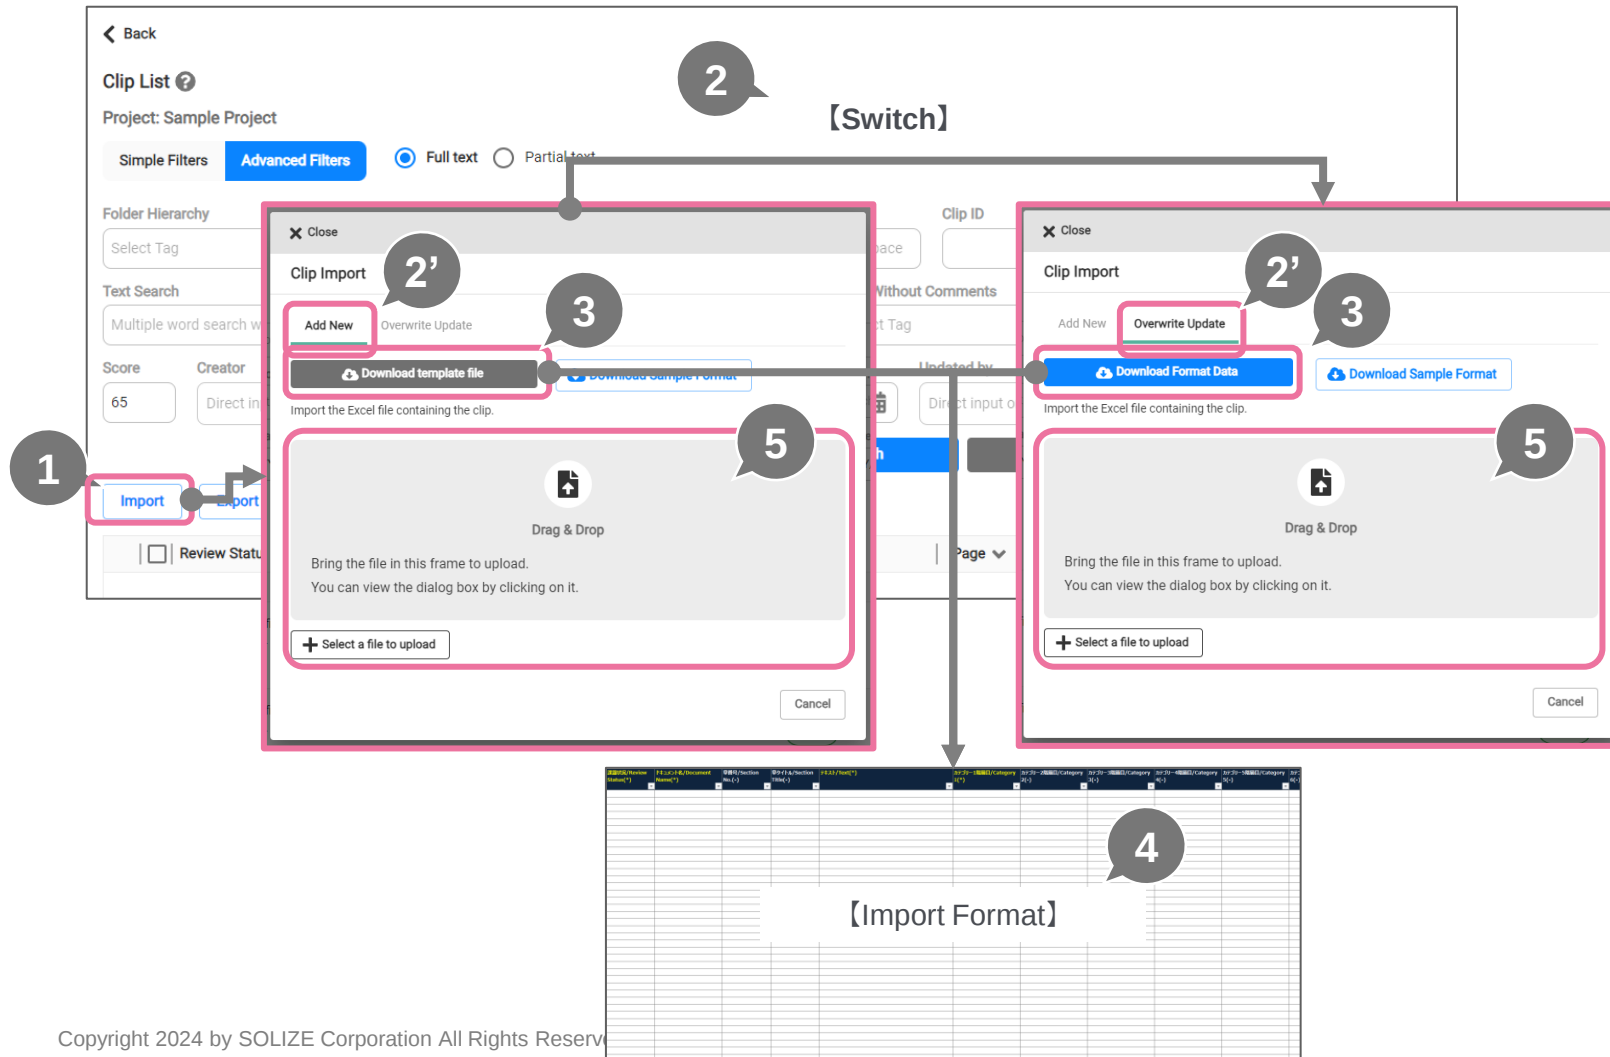

⑧ Close ChatRGV
